Place Names of the World

This is the solution to the The Place Names of the World word search puzzle created by ptolemypress.com. It's the world's largest word search puzzle, containing 163,563 names of cities and places around the world with populations of 500 or greater.

The word search puzzle poster contains tick marks to identify columns and rows. This document provides an alphabetic list of all the words in the puzzle, preceded by the column and row number of the first letter of each word and an arrow to indicate the word's direction.

For example:

6,141 ↙ POZOS

This entry tells you that the word Pozos begins in the 6th column in the 141st row, moving diagonally downward toward the left, as shown below:

```
                    10              20
